

NOTE: WING INSIGNIA IS CUT FROM PLAN

CONSTRUCT WING IN TWO HALVES OVER PLAN. JOIN TOGETHER AS SHOWN IN DETAIL BELOW. COVER WING WITH TISSUE ON TOP ONLY.

NOTE: FOR BETTER FLIGHTS, THE TRAILING EDGE OF THE LEFT WING PANEL SHOULD BE WARPED DOWN SLIGHTLY AT THE TIP, AND THE RUDDER SHOULD BE TURNED AS SHOWN IN TOP VIEW. THIS ADJUSTMENT ALSO COUNTERACTS TORQUE OF PROPELLER.

PHANTOM FLASH R.O.G.
 WINGSPAN 16" | LENGTH 11-1/4"
